RE: Golden Valley District Quarterly Newsletter

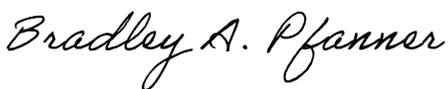

Mr. Travers:

Overall, it appears as though the 2016 Fiscal Year for the Golden Valley District has been successful. Although our funds are low due to the cost/turnout ratio of our Modesto Nuts baseball game meeting experiment, I feel that the district has been successful as we are starting to see many new faces at the district meetings. Due to this, along with our regular and returning members attending the meetings, I am projecting that our funds will be above that of previous years, this coming fiscal year. Meeting attendance has been steady, even through several regulars missing meetings at the same time, due to prior engagements.

On May 18, 2016, we held our final district meeting for the 2016 Fiscal Year at John Thurman Field, during a Modesto Nuts Minor League baseball game. We had the pleasure of having our own Francie Koehler and Jerry Desmond speak to the members and update them on recent and future changes to the law that affect us as investigators, as well as what CALI has been doing for the members. We were lucky to have several new faces at the meeting, which included one of our members setting the raffle prize bar high by bringing San Francisco 49ers Super Bowl Champion football, signed by the entire team. Although many of our regular members were unable to make it, I feel that the new and potential members who attended had a very positive experience. I feel we will be seeing a lot more of them.

As previously stated, I am very optimistic that the 2017 Fiscal Year will be significantly more successful than previous years. Moral and communication among members appears to have greatly increased. I am also looking to plan a full day of training, to include both investigators and attorneys, sometime in the Spring of 2017.

Sincerely,

Bradley A. Pfanner
Golden Valley District Director
